OPEN-AIR MUSEUM

Once called "The Largest Pit Mine in the East", the Former Ponbetsu Coal Mine is Mikasa's largest headframe and you can learn about how it fits into Mikasa and Hokkaido's story of development.

Canadian
Geo-Guide

In just over 1km you can see fossils, coal beds, coal mine heritage sites, and many more highlights of Mikasa! The Open-air Museum is packed full of history, geology, and nature!

"It was very fun and informative. The tour made me want to know more about my neighbouring region [Mikasa]."

"Amazing, fun, light while still able to deliver interesting and insightful content."
